12' x 20' 16' x 32'
12' x 24' 18' x 34'
16' x 24'

EMERALD

12' x 20'
16' x 27'
20' x 31'

FREEFORM

14' x 24' 18' x 30'
16' x 26' 20' x 33'

(Patent No. 10,344,490)

GRECIAN

15' x 29' 17' x 37'
17' x 33' 17' x 41'

RECTANGLE

8' x 12' 16' x 28'
12' x 16' 16' x 32'
12' x 24'

Incredible Versatility

The aboveground pool with the inground attitude installs anywhere! Today, residential lots offer many landscape challenges. With the superior wall construction of the Radiant Pool, you have options! The incredible Metric Series pool can be installed aboveground, inground, and semi-inground, on a slope or into a hill. The Radiant Metric Series pool fits any backyard and any budget. No other aboveground pool offers you this type of versatility!

Inground-Style Steps with an Aboveground Pool

Wedding Cake step forms can be positioned anywhere in your Metric Series Pool, allowing you to build your deck right up to the pool's edge. This gives you the same finished look you see on an inground pool with paver stones or concrete

When it comes to pioneering innovation and superior structural integrity, it is what you don't see that counts! Radiant Pools are engineered from technology originally developed for the NASA Space Program. Our 2-inch thick insulated wall panels are constructed of a closed-cell expanded polystyrene (EPS) foam core bonded between 2 sheets of durable acrylic-coated aluminum. All polystyrene used is treated with environmentally safe insecticides to prevent any insect infestation, guaranteed. Tested and proven for over 60 years!
